

The 2nd International Conference on **Biological Waste** as **Resource** 2017

Presentation and field trip

25-28 May, 2017

Venue

Z Core,
Hong Kong Polytechnic University

Themes

Food waste recycling
Sludge treatment
Agricultural waste processing
Waste and biomass valorization
Biochar/compost production and application
Catalytic conversion of organic waste
Life cycle assessment on biological waste management
Ecological impacts and toxicity of recycling
and recovery practices
Water/wastewater sludge treatment and recycling
Fate of heavy metals, PAHs, PPCPs, EDCs and nanoparticles
in waste treatment, recycling process, and the environment

Registration

Call for paper submission
